📍 Dhenkanal, Odisha, India

SKILLS

Programming Languages:
1. Javascript
2. Typescript

Libraries:
1. React
2. Redux

Frameworks:
1. Next JS

Web Technologies:
1. HTML
2. CSS
3. Tailwind CSS
4. Node JS

Databases:
1. MongoDB
2. PosstgreSQL
3. Prisma ORM

Backend:
1. Express JS
2. Cloudflare Workers

Containerization :
1. Docker

EDUCATION

B.Tech in Computer Science
SIET, Dhenkanal
2020 - 2024

12th
KIIT Higher Secondary School, BBSR
2018 - 2020

10th
St. Xavier's High School, DKL
2017 - 2018

ABOUT ME

As a novice full-stack web developer, I'm poised to embark on a journey of learning and growth, aspiring to contribute my technical acumen to cutting-edge projects. Proficient in a variety of technologies, I specialize in utilizing React for dynamic front-end development, while harnessing the power of MongoDB and PostgreSQL for robust database management. Leveraging Cloudflare Workers for scalable serverless computing.

PROJECTS

Apr 2024

MEDEUM
Full Stack Project

Description: Medeum is a blogging website, where you can unleash your thoughts and passions on a dynamic blogging platform, where every word finds its voice. Join our community and share your story with the world.
Technologies: React, Tailwind, Hono, PostgreSQL, Prisma
Website: https://medeum.anuragg.top/

Sep 2023

PROMPTOPIA
NextJS Project

Description: Promptopia is a prompt sharing site, where users can share useful AI prompts which will help in getting desired results from their favourite AI chat bots like Chat GPT, Perplexity or Phind.
Technologies: NextJS, Tailwind, Next-Auth
Website: https://promptopia-a7sb2hx2l-10kumaranurag01.vercel.app/

Jun 2023

KASMEDIA
ReactJS Project

Description: I've revolutionized online interaction with my ReactJS-powered YouTube clone. Fetching authentic YouTube data via RapidAPI, it fosters similar watching experience as YouTube.
Technologies: React, Open API, SCSS
Website: https://yt-clone-lgutq3wn4-10kumaranurag01.vercel.app/

May 2023

REACT CART
ReactJS Project

Description: In building this basic cart app, I harnessed the transformative power of Redux Toolkit. By enabling centralized state management, Redux facilitated global access to variables, exemplified by its core features.
Technologies: React, Redux Toolkit, SCSS
Website: https://react-cart-app-eta.vercel.app/
